

**FACTOR**

Simply great  
lighting

“This spotlight range is distinctively characterised by three archetypical basic shapes: the cuboid, the cylinder and the cone. The design of the heat sink as a modular, variable component opens up new perspectives for future alternatives in terms of technology, but also in terms of shape.”

**EOOS** [www.eoos.com](http://www.eoos.com)

**FACTOR**, a modular LED spotlight, combines reduced complexity with great lighting quality. Ideal for shops and retail areas. For customized presentation of various products, FACTOR is available in color temperatures of 3000 K and 4000 K. For the special lighting demands required for fresh meat and baked goods, FACTOR provides True Gamut Rendering (TGR) food LED chip technology versions to ensure a presentation that matches the specific merchandise. The optical systems ensure uniform light distribution with high precision. Even more brilliant accent lighting is provided thanks to the high-precision polycarbonate reflectors. Free from IR and UV radiation, FACTOR combines high quality with gentle lighting.
