MELLOW LIGHT IV

Recessed ambient luminaire

zumtobel.us/mellow-light

It is a well-known fact in architecture: The bigger the cubic content, the more difficult it is to guide daylight into the inner areas. MELLOW LIGHT plays with light. It brings the depth of the room to life in the mellow colors of the sky until late at night. Walls and ceilings begin to breathe and give people a renewed sense of outdoor freedom.

Indoor Daylight

Offices

Conference Rooms

Healthcare

Education

Since 1988, MELLOW LIGHT has been an icon in the world of office lighting. MELLOW LIGHT is shaping the future of workplace illumination, while still referencing the archetypal design of previous generations. Developed by Zumtobel in collaboration with Daniel Stromborg of Gensler, the newest generation is elegantly detailed and offers greater freedom of design.
